

Safari wallet

A culture of travel

Building a new culture of traveling for Africans and beyond. Allowing all travelers to explore, access and ultimately design their own experiences with the added benefit of securing their dream travel arrangements under the plans in place all while from their own comfort of home or workplace.

It is now time to show how accessible it is to explore the wonders on your doorstep and allow the dreams to become reality for all Africans.

Problem

Tanzanians wants to travel, but currently there exists no system that enables locals to customize the experience to fit their wallets and income flows.

Solution

A web platform that offers travelers the flexibility to:

-  Access holiday packages
-  Design personalized safari
-  Plan and book
-  Pay securely by installments.

Platform Key Features

-  Personal Account
-  Personal Wallet
-  Personal travel book.
-  Search and access all Safari packages and events.
-  Customize your own experience.
-  Create, invite, share and join safari groups.
-  Collect points and activate new safari discounts.
-  Notifications, up-coming events, discounts and deals.

What makes Safari Wallet unique

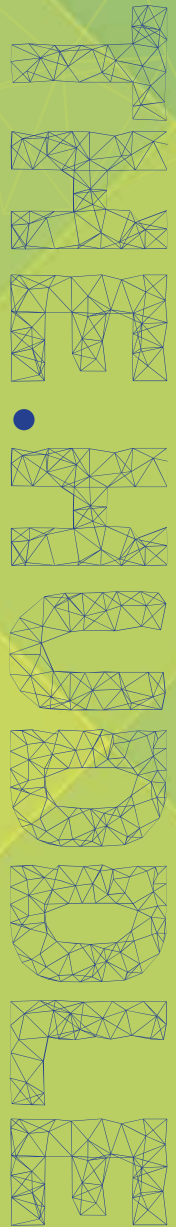

We've joined together from across the travel industry, digital marketing, financial and tech industry to carve a different approach to travel and explore for locals in Africa. Allowing travelers the accessibility to holidays packages of all offerings listed by licensed tour operators, safari events, and allow the traveler to design their own safari experience.
